Warranty

● Warranty Policy

This product comes with a two-year limited warranty from the date of purchase.

During the warranty period, any defects due to manufacturing errors will be repaired free of charge.

● Limited Lifetime After-Fire Replacement Program

If this product is damaged by fire at any time during your ownership, we will replace it free of charge.

When contacting us to request a product replacement, please have the following information ready:

- ① A description of the fire incident;
- ② The product model;
- ③ Photos of the damaged unit;
- ④ A copy of an official report issued by the fire department, insurance company, or police.

To qualify for this Lifetime After-Fire Replacement Program, you must activate the warranty within **15 days** of purchase by registering online at www.nicehomesafe.com, or by scanning the QR code on the back of this user manual to contact us and complete the registration.

Please scan the code to activate your warranty

Fire Specifications

- **Verified Fire Resistance**

This product has passed multiple [fire resistance tests](#), with a certified rating of over 30 minutes.

Independently tested by a third-party laboratory to meet recognized fire-resistance standards.

Designed to protect paper documents from heat damage during common household fires.

We are committed to using high-quality materials and precision engineering to ensure every safe meets its design standards.

Accessories & Parts Checklist

Please verify all accessories and parts against the following table before use. If anything is missing, please contact us. We will respond within **24** hours.

Item	Picture	Qty
Safe Box		1
Key		2
External Battery Box		1
Installation Accessories		2
Manual		1
Fireproof Plug		4

Usage Instructions

• First Time Opening the Safe

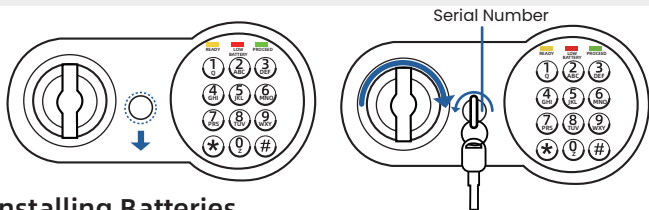

1. Remove the lid to reveal the keyhole.
2. Take the provided key and insert it into the keyhole.
3. Turn the key to the left, then rotate the knob clockwise and pull outward—the door will open.

Do not store the keys inside the safe.

Each safe has a unique serial number.

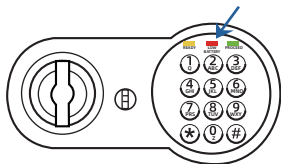

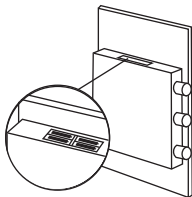

If you lose your keys, contact us with the serial number and we'll provide a replacement key.

• Installing Batteries

1. Open the battery compartment on the back of the door.
2. Insert **4 AA** batteries, observing the correct polarity (**batteries not included**).
3. Close the compartment cover.

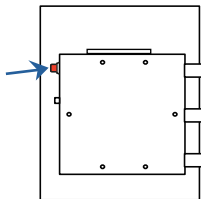

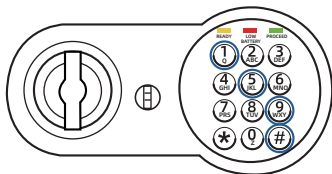

⚠ Note: Replace all batteries when the low-battery indicator lights up.

● Setting Your Personal Password

Initial Password: "159#"

1. Press the reset button to initiate password change.
2. Enter your new code (3-8 digits), and press "#" to save.
3. Re-enter the new code and press "#" again to confirm.
4. Turn the knob clockwise to open the door and complete the setup.

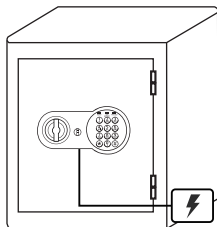

After replacing the batteries, the existing personal code will be reset. A new personal code must be reprogrammed.

● External Battery Case Unlocking

When the lock's batteries are dead and the key is lost, you can unlock it using an external power source:

1. Take the external battery case and load it with four AA batteries.
2. Insert the case into the small hole at the bottom of the lock to power it on.

Additional Features

• Alarm & Auto-Lock

If the wrong code is entered 3 times in a row, the keyboard will lock for 20 seconds and the alarm will sound for 20 seconds.

If the wrong code is entered 6 times consecutively, the keypad will lock for 5 minutes and the alarm will sound for 5 minutes.

The keypad will be disabled while the alarm is sounding.

To stop the alarm, open the safe using the emergency key and disconnect power by removing the battery.

• Silent Mode

To avoid disturbing others, you can enable Silent Mode to disable the keypad sounds.

To activate Silent Mode:

Press *633

To deactivate Silent Mode:

Press *66

Installation Instructions

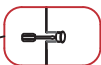

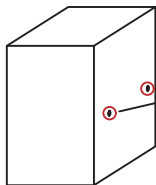

● Preparing Your Safe for Wall Mounting

We pre-drilled holes in the safe and sealed them with metal fireproof plugs to ensure maximum fire resistance.

If you do plan to mount the safe, carefully remove the fireproof plugs from the back using a thin rod, pushing them out gently from inside the safe.

Important: Do not remove the pre-drilled plugs unless you plan to mount the safe to a wall.

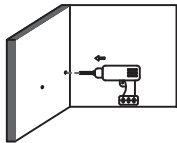

Fire Plug Removal

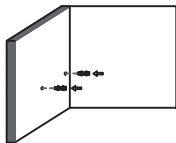

Push out from inside using a metal screwdriver.

● Expansion Bolt Installation Instructions

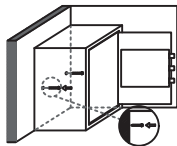

Step 1:

Step 2:

Step 3:

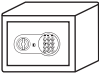

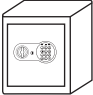

- ① Drill holes at suitable positions and insert the expansion bolts into the holes.
- ② Rotate the bolt to expand the anchor inside the hole, then remove the bolt.
- ③ Remove the fireproof plugs on the back of the safe
- ④ Position the safe against the wall, align the holes, then reinstall and tighten the bolts to secure the safe.

The expansion bolts will seal the mounting holes after installation and will not affect the fire Protection performance of the safe.
